

Kerry-Edwards Can Win Louisiana! Take Action! Organize!

Start Locally - - -

SIGN UP on www.KerryRoots.com Louisiana's online, volunteer-sponsored grassroots data collection project designed to identify supporters and ignite grassroots enthusiasm. Campaign activists can network neighbor-to-neighbor and add supporters statewide to a common grassroots database. www.KerryRoots.com currently emails a Weekly Update of regional events of interest.

Only 20% of Louisiana voters regularly use email. In www.KerryRoots.com one computer-savvy person's KR ID# can include other supporters identified by a telephone number, thus linking the traditional telephone trees of clubs, churches, and neighborhoods to the internet.
